Paris, France

PROFILE

Web developer focused on building modern, responsive, and maintainable digital products with strong frontend execution and dependable backend foundations.

CORE SKILLS

HTML, CSS, JavaScript, TypeScript, React, PHP, Laravel, MySQL, API integration, responsive design, accessibility, Git.

EXPERIENCE HIGHLIGHTS

- Built performant interfaces for service businesses, internal dashboards, and content-driven websites.
- Delivered full-stack features with Laravel and MySQL, including admin flows and scalable content structures.
- Improved user experience with cleaner UI systems, responsive layouts, and faster page interactions.

SELECTED PROJECTS

- Commerce Control - multi-store analytics and operations dashboard.
- Studio Booking Flow - modern reservation workflow for a creative business.
- Pulse Portfolio CMS - content management system for service-led portfolios.
